

# Net Protection - **equiplex**®

## TECHNICAL CHARACTERISTIC

### **Descriprion** – 30/45 –150– 50mm – black

Protection net produced in the form of a mesh of 50mm between us, made in monofilament polyethylene (twisted) of high density HDPE, 150 stitches high by 500 stitches long.

Floor area: 35m x 10.5m (in the form of diamond).

### **Filament**

- Polymer	:	HDPE
- Color	:	Black
- Title	:	32,400 Denier
- Stabilizer	:	Anti-UV and antioxidant
- Wire (45 wires of 0.30mm twisted)	:	30/45
- Diameter	:	3.0 mm approx.
- Tenacity	:	3.43 g / denier
- Elongation	:	60%
- Maximum use temperature	:	+60°C / - 60°C
- Dimensional stability	:	± 3%

### **Net**

- Weight	:	81 Kg/pc
- Tensile strength longitudinal	:	107 kg/mesh
- Tensile strength transverse	:	107 kg/mesh
- Resistance of the net	:	1.8 kJ
- Warranty (**)	:	03 years

**(\*\*) Durability:** This product has been tested in accordance with the plan of inspection and testing Equipesca. The security of this product is 3 years against defects in manufacture and durable in normal use. This warranty does not cover damage caused after its installation, such as cuts, burns, chemicals or any other product that changes the resistance of the molecular product. The Equipesca is not responsible for damage to third parties arising out of problems and defects in the installation of the product.

Not recommend the reusing if there occurrence of 02 falls under the net, because with the impacts, the net begins to suffer deformation and consequently break.
